CHUBB

# Estimating replacement cost is now quicker than ever!

Chubb's **Home Coverage Estimator** is another resource for making it easier to do business with us. This tool provides a general indication of the replacement cost for your client's residential freestanding dwelling, condo, or townhome.

## Receive an estimated replacement cost in just 6 steps!

1. Log into the Agent Portal
2. Click on **Home Coverage Estimator** under **Tools and Services** on the Personal Lines page
3. Make the appropriate selections based on the client's home details
4. View the calculated replacement cost estimate **immediately** with a follow up email received shortly thereafter
5. Use this replacement cost value to create a quote in **Masterpiece EZ Quote**
6. Share this information with your client!

We hope that you find the Home Coverage Estimator to be a useful resource that makes doing business with Chubb easier and faster.

If you have any questions or concerns, please contact the Chubb PRS Risk Consulting group at chubbriskconsulting@chubb.com.

*The estimated replacement cost generated by the Chubb Home Coverage Estimator is provided for informational purposes only. It is offered to assist insurance agents when estimating replacement costs of a home and in discussions of potential values with their clients for insurance underwriting purposes. Under no circumstances shall any estimate generated be considered a definitive replacement cost value as determined by Chubb and shall not be used to establish values in relation to any claim for loss or damage. Chubb has no obligation or responsibility for determining replacement costs or values submitted with a request for an insurance quotation or coverage.*
